

TO WHOM IT MAY CONCERN

Customs Declaration | Travelling abroad with Apomorphine hydrochloride

Hereby it is confirmed that Mr. / Mrs. _____
is a Parkinson's patient and currently under treatment with Apomorphine hydrochloride. Apomorphine hydrochloride possesses no narcotic properties and is not a controlled drug in any country. It is prescribed by a medical practitioner and used in accordance with his or her directions.

This treatment necessitates Dacepton[®] medication with a medical device like the *D-mine[®] Pump*, which is an infusion pump system and used for continuous medication delivery, or *D-mine[®] Pen*, which is used for intermittent injections on demand. The regular use and therefore the carrying of reservoirs, subcutaneous catheters, placement aids, pen needles or syringes is necessary.

Your co-operation in this regards is highly appreciated.

Kind regards,

Date _____
